Overview of GASAT 11 Conference

6 – 11 July 2003
International Conference Centre
Grand Baie
Republic of Mauritius

Patron: Lady S. Jugnauth

This high calibre Conference is a follow-up from the 10th GASAT (Gender And Science And Technology) Conference held at Copenhagen in the year 2001.

The aim of this Organisation is to promote a balance between the contribution of men and women across the world towards the development of their country. This may be achieved through deeper and broader involvement of women in Science and Technology among other affairs of equal importance.

For this to happen opportunities are provided through this conference platform for sharing of experiences, networking and strengthening of capacities.
